FEEDING INSTRUCTIONS

Feed daily, per head, **Horse Supplement 35** using the enclosed one cup measure.

500-lb horse = ½ cup

800 – 1,000-lb horse = one heaping cup

1,200 – 1,400-lb = 1½ cups

Provide free choice salt at all times. Do not mix this supplement with other vitamin and mineral supplements.

CAUTION: **Horse Supplement 35** is formulated for equine consumption. Follow label directions. Feeding higher levels of selenium is not permitted. Contact your local veterinarian for more information on selenium. Do not feed this supplement to sheep or goats because of the added copper it contains.

NOTE: This product **DOES NOT** contain steroids or animal byproducts.
